

Combating Supply Chain Fraud

The challenge before Scout®

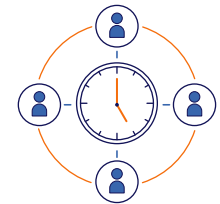

- 1 A Tier 1 UK Motor Insurer was **concerned about possible fraud losses** within the supply chain.
- 2 To help them find previously undetected fraud, **Synalogik ran a POV on 200 claims.**
- 3 **Scout® validated details on accidents**, including repairer, vehicles, claimant names, address and telephone numbers.

Scout® delivered:

Excess of **£1.6 million** annual fraud savings identified just from the POV

288 hours saved using Scout® technology

52% increase in fraud detection

Detected **hidden links** between 1st and 3rd parties, leading to claim repudiation

Identified fraudulent claims where links were found **between multiple suppliers in the same claim**

Discovered **10%** of vehicles had no MOT creating credit hire savings
